Juno College of Technology
2021

Intro to JavaScript Course
Juno College of Technology
2021

Bachelor of Music
University of Toronto
2016

PROFILE

I am a front-end web developer with an aptitude for creative problem solving, and a desire to work in inclusive and collaborative spaces. My background in the hospitality industry and music education has given me the ability to be receptive and flexible to different ideas, perspectives, and changing demands. Being a musician and creative person has made me suitable to workplaces that demand continual study and ability to work on a team.

PROJECTS 🔗

Trivia Time! App - LIVE REPO
HTML, SCSS, JavaScript, React, Firebase

Quiz app using the Open Trivia API and user input to generate a quiz. React used to dynamically render and change elements on the page, and Firebase used to store high scores.

Animal Crossing App - LIVE REPO
HTML, SCSS, JavaScript, RESTful API

Utilizes the ACNI API to search for in-game characters, and filters them using user information. Filtered results are stored and displayed in a paginated fashion.

Planted (PSD Conversion) - LIVE REPO
HTML, SCSS, JavaScript

Complete PSD conversion project featuring multi-page responsive design, style guide adherence and mobile design.
Made interactive with JavaScript. Implements version control via GitHub, proper file-naming conventions, and SCSS partials

EXPERIENCE

Private Music Instructor
2012 - Present
- Taught pop / rock / jazz guitar, and helped students perform with confidence by discussing strategies to minimize anxiety
- Optimized learning environment for students by being responsive and adaptable to student's needs and motivations

Bartender/ Barback
January - August 2018
- Provided timely and efficient customer service to hundreds of guests per night through effective communication and coordination with managers and co-workers
